Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 09 August 1999.

2a) This action is FINAL. 2b) This action is non-final.

3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) Claim(s) 1-45 is/are pending in the application.

4a) Of the above claim(s) _____ is/are withdrawn from consideration.

5) Claim(s) _____ is/are allowed.

6) Claim(s) _____ is/are rejected.

7) Claim(s) _____ is/are objected to.

8) Claim(s) 1-45 are subject to restriction and/or election requirement.

Application Papers

9) The specification is objected to by the Examiner.

10) The drawing(s) filed on _____ is/are: a) accepted or b) objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).

11) The proposed drawing correction filed on _____ is: a) approved b) disapproved by the Examiner.
If approved, corrected drawings are required in reply to this Office action.

12) The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

13) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).

a) All b) Some * c) None of:

1. Certified copies of the priority documents have been received.
2. Certified copies of the priority documents have been received in Application No. _____.
3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).

a) The translation of the foreign language provisional application has been received.

15) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

DETAILED ACTION

1. Claims 1-45 have been presented for examination and remain pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22, drawn to a control unit to be used for network computer configuration, classified in class 709, subclass 220.
 - II. Claims 22-25, drawn to task management or control in a distributed control system executing application through message communication processing between application programs on a plurality of control units, classified in class 709, subclass 100.
 - III. Claims 26-31, drawn to an information processing system comprising input receiving means and output means, classified in class 710, subclass 1.
 - IV. Claims 32-45, drawn to priority based messaging in a real-time distributed system, classified in class 709, subclass 207.
3. The inventions are distinct from each other for the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because:

 - Invention I defines the function of a control unit for network computer configuring that is not disclosed in Inventions II, III and IV;

Art Unit: 2153

- Invention II defines the function of task management control in a distributed control system that is not disclosed in Inventions I, III and IV;
- Invention III defines the function of an information processing system for input/output that is not disclosed in Inventions I, II and IV; and
- Invention IV defines the function of priority based messaging in a real-time distributed system that is not disclosed in Inventions I, II and III.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. These inventions are distinct for the reason given above and the search required for each group is different and not co-extensive for examination purpose. For example, the searches for the two inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

- a. Group I search (claims 1-22) would require use of search class 709, subclass 220 (not required for Groups II, III and IV).
- b. Group II search (claims 23-25) would require the search of class 709, subclass 100 (not required for Groups I, III and IV).
- c. Group III search (claims 26-31) would require the search of class 710, subclass 1 (not required for Groups I, II and IV).
- d. Group IV search (claims 32-45) would require the search of class 709, subclass 207 (not required for Groups I, II and III).

Art Unit: 2153

6. Because these inventions are distinct for the reasons given above and they require different searches, restriction for examination purposes as indicated is proper.

7. Applicants are advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Conclusion

8. A shortened statutory period for response to this action is set to **expire 1 (one) month and 0 (zero) days** from the mail date of this letter. Fail to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P 710.02, 710.02(b)).
